

NGA INTERNSHIP JOURNEY

The National Geospatial-Intelligence Agency (NGA) is a U.S. intelligence and combat support agency providing policymakers, warfighters, intelligence professionals, and first responders key information and insights. Through NGA's Student Internship Program, you'll have the opportunity to support geospatial intelligence (GEOINT) work that helps protect our nation and our world—all while earning a paycheck.

"

It was refreshing to see that my work was valued. The project I worked on during my internship had a lasting impact on my office." Steavi S.

ENGAGE in meaningful work. ENJOY NGA's benefits such as a flexible work schedule, special emphasis councils, and an onsite fitness center. agencies within the intelligence community (IC) including the Defense Intelligence Agency (DIA), **PARTICIPATE** Central Intelligence Agency (CIA), National Security in networking events including: Agency (NSA), and the Pentagon. - Intern lunches - Leadership events and mentoring - IC social events and happy hours **PRESENT** your project in an annual showcase.

NGA STUDENT INTERNSHIP PROGRAM

With an internship at NGA, you'll support one of the following program areas:

CORE MISSION

Analysis:

Delivers geospatial intelligence in support of national security objectives.

Collection:

Collaborates with customers and source providers to develop comprehensive, innovative intelligence and source strategies to address agency needs.

Data and Visualization:

Manages NGA's data holdings and creates visual products to convey mission relevant information.

Foundation:

Supports NGA analysts who provide products that are easily discoverable and consumable to warfighters and foreign policy communities.

Information Technology:

Utilizes information systems to store, retrieve, transmit and manipulate data to achieve business and operational requirements.

Research and Development:

Conducts and develops scientific research projects and facilitates interdisciplinary collaboration to provide technical guidance and oversight, report results and advises on new and evolving technology.

MISSION SUPPORT

Contracts:

Performs the negotiation and execution of Federal contracts to meet mission requirements.

Corporate and Business Operations:

Advises and guides NGA's leaders, builds and maintains relationships with GEOINT partners, and develops policies and programs that support the GEOINT mission.

Financial Management:

Provides sound financial management through analysis of NGA's requirements and ensures resource capabilities are available to satisfy current and future GEOINT requirements.

Human Capital:

Advises and assists the agency in attracting, developing, managing, and retaining a high quality and diverse workforce.

Inspector General:

Manages and develops audits, inspections, investigations, and counsel to the workforce.

Security and Facilities:

Provides safety in a modern work environment to its employees, customers, programs and infrastructure.
